OF
Births, Marriages and Deaths
1910

REPORT

RELATING TO THE REGISTRATION OF

Births, Marriages and Deaths

IN THE

PROVINCE OF ONTARIO

FOR THE

Year Ending 31st December,

1910

(Being the 41st Annual Report.)

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO:

Printed and Published by L. K. CAMERON, Printer to the King's Most Excellent Majesty
1911.

Printed by
WILLIAM BRIGGS,
29-37 Richmond Street West,
TORONTO.

To His Honour the Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I herewith beg to present for your consideration the Forty-First Annual Report of the Registrar-General, relating to the Registration of Births, Marriages and Deaths in the Province of Ontario, during the year 1910.

Respectfully submitted,

W. J. HANNA,

Registrar-General of Ontario.

SIR:—

I have the honour to submit for your approval the Forty-First Annual Report made in conformity with and under the provisions of The Act respecting the Registration of Births, Marriages and Deaths in the Province of Ontario, for the year ending December 31st, 1910.

I have the honour to be, Sir,

Your obedient servant,

A handwritten signature in cursive script, reading "John W. McCallough". The signature is written in dark ink and is positioned above the printed name of the Deputy Registrar-General.

Deputy Registrar-General.

TO HON. W. J. HANNA,
Registrar-General of Ontario.

REPORT UPON

Births, Marriages and Deaths

FOR THE YEAR 1910

The forty-first report of vital statistics of the Province of Ontario for the year ending December 31st, 1910, contains more registrations of Births, Marriages and Deaths than any preceding report.

The Department of the Registrar-General received during the year 113,446 registrations as follows:

Births.....	55,871
Marriages	24,036
Deaths.....	33,539
	113,446

The County of York, including the City of Toronto, alone furnished 19 per cent., or nearly one-fifth of the registrations. The returns for this thickly populated municipality are as follows:

Births.....	10,532
Marriages.....	4,805
Deaths	6,517
	21,854

VITAL STATISTICS RETURNS FOR TWELVE YEARS, 1899-1910.

—	Births.	Marriages.	Deaths.	Total.
1899.....	44,705	16,514	28,607	89,826
1900.....	46,127	17,107	29,494	92,728
1901.....	46,061	18,035	29,608	93,704
1902.....	47,796	18,072	27,864	93,732
1903.....	48,642	19,830	29,664	98,136
1904.....	50,265	19,789	31,290	101,344
1905.....	51,911	20,426	31,371	103,708
1906.....	51,710	19,846	32,782	104,338
1907.....	53,584	21,915	33,502	109,001
1908.....	57,155	21,058	32,714	110,927
1909.....	54,465	22,366	32,628	109,459
1910.....	55,871	24,036	33,539	113,446
Totals.....	608,292	238,994	373,063	1,220,349

BIRTHS.

During the year, the 55,871 births—including still-births—were registered as to sex, as follows: males, 28,664, females, 22,207. It is usual to find more male children born in any year than female. The proportion is 124 males to 100 females.

A ratio of 24.9 per 1,000, of the estimated population, was maintained throughout the Province; this is an increase of .6 over the ratio of the preceding year. Although this ratio is not as great as it might or should be, there are one or two reasons for this. In the first place there continues to be a great deal of ignorance displayed by the parents in regard to the importance of registering births. This may be due to their not knowing the law, and also, to illiteracy. Another reason which contributes materially to the birth ratio being smaller than it should be, is the fact that there is, and has been for years, a steady emigration of the young men of marriageable age to our western provinces. These men settle in the new provinces, marry, and bring up their families there, while the older generation, past child-bearing age, are left in Ontario. In most of the counties settled by the French people of Ontario, a great many of the births are registered by the priests of the parishes. The people being Roman Catholics generally, are anxious to have their children baptised as soon after birth as possible, and in this manner the priests get their names and register them, although there is no provision in the Vital Statistics Act giving them this power, yet, if these clergymen did not make the registrations, very many, indeed most of them, would go unregistered, as it is impossible for the Division Registrar to know where births take place.

It will be noted that in counties populated mostly by the French-Canadians, such as Prescott and Russell, Essex, Stormont, Dundas and Glengarry, Nipissing, Thunder Bay, the ratios are greater than in counties where most, or all of the population is English speaking. The same holds good in those counties which have a city within their borders, especially a large city. Here, too, the ratio is greater than in the counties composed of a strictly rural population.

Births by Counties: In Table 1, will be found a list of 47 county municipalities. In 24 of these an increase of births is shown, and in 23 a decrease over the preceding year. There is however, as stated before an increase of .6 on the whole.

Births by Cities: There are 18 cities in Ontario—See Table 2—and these give a general increase of 3.1 per 1,000 over the number of births registered by the cities last year. Although there are five of the list showing decreases, the increase in the remainder more than offsets these.

Births in Towns of over 5,000 Population: These will be found in Table 3, which shows that the towns are not increasing in population generally. There are 15 towns and although eight show increases in births, the seven which show decreases make the total ratio fall .6 below that of 1909.

In 1909 there were 108 males born for every 100 females, and in this year there were 124.

There were 370 pairs of twins born—364 boys and 376 girls. There were five cases of triplets, 9 boys and 6 girls.

There were 1,077 children registered as illegitimates.

As to the months showing the largest number of births, March takes the lead. The table illustrating births by months is as follows:

Males.		Females.		Males and females.	
March.....	2,605	May.....	2,486	March.....	5,033
August.....	2,566	March.....	2,428	May.....	5,028
May.....	2,542	July.....	2,432	August.....	4,957
July.....	2,507	August.....	2,391	July.....	4,939

Not given.....	3	Not given.....	1	Not given.....	4
	28,664		27,207		55,871

MARRIAGES.

There were 24,036 marriages registered for the year.

This is an increase of 1,670 marriages for the year, and an increase of .7 per 1,000 of the population over the number in 1909. This increase speaks well for the prosperity of our province, for it has been noted that when the country is enjoying a period of prosperity, that this has a decided stimulating influence on the number of marriages, while the reverse is true when we suffer from a period of depression.

In table 5, is seen the marriages for the past 10 years. There is, with one exception, that of 1906, a steady increase from 1901 to the present. The increase of the decade which closes with the year 1910 is .5 per 1,000 of population greater than the decade immediately preceding.

Table 1 shows the number of marriages in each county. In 28 counties increases are shown, and decreases in 19. The counties which show the greatest increases are those which contain the largest cities, but on the whole there is a healthy growth in the number.

Table 2 shows the marriages by cities. Fourteen show increases; three, decreases; and one stands the same as for the former year. The total increase in these urban municipalities is 1,644. From this one might judge that the number of marriages in the rural districts remains practically unaltered as the increase in the cities is almost as much as that of the whole province.

The City of Windsor continues the Gretna Green of Ontario, the number of marriages in 1910 exceeding that of 1909 by 375. Indeed the marriages in this city have increased each year as shown in the following table, which contains the number of marriages in Windsor for the last five years.

1906.....	1,193,	an increase of	5	over	1905
1907.....	1,562,	"	"	369	" 1906
1908.....	1,564,	"	"	2	" 1907
1909.....	1,918,	"	"	354	" 1908
1910.....	2,293,	"	"	375	" 1909

The cause of the above abnormal increase in this city is due, as has been pointed out repeatedly in former reports, to the influx of Americans from all

over the United States to this particular point for the express purpose of having their marriage celebrated under the Ontario laws. This is not because our law is more binding, but because it is so secret. Parties may procure a license for the statutory fee of \$2.00, and by declaring by affidavit that "the reason for procuring the marriage to be celebrated in Windsor is not in order to evade due publicity or for any other improper reason," the marriage is celebrated, and no questions asked. In our opinion all licenses to marry should be advertised in a local newspaper. This would have the effect of checking clandestine marriages.

The month of June still continues in favor with couples engaging in matrimony, 3,455 marriages taking place in this month. Next in order come September and December, and though it may appear strange, this order for these three months obtains nearly every year. Then follow October, November, August, July, April, March, January, February. May is almost invariably last. The same order prevails in the cities and towns in regard to June, September and May, but in both, December is replaced by October.

Marriages by denominations were as follows:

Methodists	13,824
Presbyterians	9,529
Anglicans	9,489
Roman Catholics	7,351
Baptists	3,280
Lutherans	1,635
Congregationalists	531
Evangelical Association	261
Hebrews	224
Salvation Army	211
Others	1,367
No denomination	370

By ages, more men and women marry between the ages of 20 and 24 than at any other age.

Appended are two tables showing the marriages by denomination and by ages, worked out in detail. Reading horizontally, the figures are read for grooms, and vertically, for brides. One can see at a glance just how the marriages took place.

	TOTALS	453	8,168	7,731	3,568	1,730	919	511	327	230	155	93	72	79	24,036

The tables are full of interest, especially that which shows the mixed marriages as between Roman Catholics and Protestants.

For instance, from the table relating to denominations, we learn that 178 Roman Catholic men married as many Anglican women; 126 Roman Catholic grooms took Presbyterian brides; 157, Methodists; 68, Baptists; 10, Congregationalists; 85, Lutherans; 5, took women of the Evangelical Association; and two married Jewesses. The brides of 23, gave other connections than those mentioned, and 11 brides made no claim of church membership at all. On the other hand, 269 Roman Catholic brides married Anglican grooms; 164 married Presbyterians; 203 became wives to as many Methodists; 52 took Baptists; 11 went with Congregationalists; 79 threw in their lot with Lutherans; 3 married members claiming connection with the Evangelical Association; 5 married Jews; the husbands of 27 claimed to belong to other sects than those classified in the table; and 31 of the men who took Roman Catholic brides did not lay claim to any particular faith.

On the whole, there were 665 men and 844 women of the Roman Catholic Church who married others than members of their own faith.

Similar analyses in regard to ages may be made from the table relating to marriages by ages.

DEATHS.

The total number of deaths registered from all causes in the province was 33,539, divided among groups of municipalities as follows:

Towns, over 5,000 population	1,990
Cities ..	12,303
Counties, including smaller towns and villages ...	19,246

The death-rate for the province was 14. per 1,000 of the population, being a decrease of 0.6 below that of the preceding year. For the decade—See Table 6—the rate was 14.

As usual in statistics, there is a variation in the number from each county from year to year; some giving increases and some decreases. Of the former there were 28, and of the latter 20. In the whole province the increase was 911, although the death-rate was smaller this year than last.

In table 6, will be found the average death-rate of each county for the past ten years, together with the rate of each of the years since 1901. The average for the decade is 14. per thousand, which has been exceeded in the years 1904-5-6-7-8-9.

It will be seen in those counties wherein are situated the centres containing the most heavily populated cities, York, Carleton, Wentworth, Middlesex, Frontenac, show a gradual upward trend in the yearly average rates. York having increased in the ten years from 15.5 to 23.3; Carleton, from 18.8 to 19.2; Wentworth from 14.7 to 19.3; Middlesex from 13.5 to 14.1; Frontenac from 15.9 falls to 15.2, but on the whole is above the average.

The counties giving the lowest death-rate were those of Huron and Parry Sound, with 9.8; the greatest was that of Thunder Bay with 46.6. This is not due to the fact that more deaths occur in this district than any other, but to the fact that the estimated population is altogether too low. Nipissing also shows a rate more than 100 per cent. above the average for the Province, being 29.5, and the

same is also true in this municipality. We know for a fact that thousands of newcomers have been pouring into our northern counties every year and these are not counted in the factor upon which the population is based.

DEATHS IN CITIES.

In considering the returns of deaths for cities, the ratio of which is 21.1 per 1,000, it must be pointed out that the hospitals located therein are made use of by residents of the surrounding districts. The deaths which occur in these institutions are consequently registered in the cities, thus largely increasing city death rates.

What has been stated in regard to the high death-rate of the Districts of Nipissing and Thunder Bay applies also to the cities of Fort William and Port Arthur. The estimated populations are far, very far below the actual of these cities.

DEATHS IN TOWNS.

The average death-rate was 14.7. Nine of the towns show a higher death-rate and six a lower one. The greatest is Brockville with 22.6. This is higher than the average for five years for the same place by 3.6.

TABLE SHOWING DEATHS BY AGE PERIODS, 1906-10.

	Under 1.	1-4.	5-9.	10-14.	15-19.	20-29.	30-39.	40-49.	50-59.	60-69.	70-79.	80 and over.	Not stated.	Total.
1906.....	8,405	1,683	599	537	876	2,519	2,029	2,114	2,382	3,381	4,323	3,706	228	32,782
1907.....	8,041	1,889	673	515	798	2,542	2,117	2,104	2,469	3,564	4,598	3,908	224	33,502
1908.....	8,662	1,868	619	528	800	2,368	2,048	1,972	2,449	3,277	4,223	3,515	385	32,714
1909.....	8,768	1,653	660	469	721	2,183	1,864	1,935	2,391	3,299	4,516	3,691	478	32,628
1910.....	8,857	1,917	732	470	774	2,155	1,967	1,950	2,478	3,360	4,644	3,807	428	33,539
	42,433	9,010	3,283	2,519	3,969	11,737	10,025	10,075	12,169	16,881	22,304	18,627	1,803	164,834

It will be seen that there is an upward tendency in each age group.

The greatest difference between the number of deaths in 1910 and 1909, in any group is that in the ages 1-4 years; the next is 70-79. The former is, no doubt, due to the fact that so many children between those ages have died of preventable diseases. The deaths of 70 years and over are due principally to old age causes. There is a decrease in the twenties which speaks well for the young manhood and womanhood of our province.

TUBERCULOSIS.

To permit of comparison of the deaths per annum from this disease, the table given in previous reports is maintained. It will be seen that the total number of deaths for 1910 is 2,291, being a decrease of 89 during the year. Since 1906, there has been a decrease each twelve months, due, no doubt, to the influence of the active movement against the conditions which induce and propagate the disease.

TABLE SHOWING DEATHS FROM TUBERCULOSIS, PROVINCE OF ONTARIO, 1881-1910

Each year shows an increase in individuals, associations, municipalities and governing bodies who interest themselves and place at the disposal of those interested material for the great fight which will eventually exterminate this dread monster—the white plague—from our land.

The death-rate from tuberculosis for 1910 was 1 in 14; a little less than in 1909, when it was 1 in 13.

The following diagrams showing the progress of the disease for the last eleven years by ages, sex and months, will speak more forcibly than any words.

DEATHS FROM TUBERCULOSIS FOR 11 YEARS, 1900-1910, SHOWING SEXES.

MALES	14,106

INFANT MORTALITY.

Let us deduct the still-births and the deaths in which no age is given, 428; there remain 30,904 deaths. Of these, 6,450 are children under one year of age, or more than 20.8 per cent. of all deaths in the province.

This means that, taking the births into consideration, and deducting therefrom the still-births, that out of every eight children born alive, one is already doomed to death before reaching his twelfth month. A bad record indeed, and

one which is hard to improve, owing to the difficulties to be met in trying to get proper information and instruction to the mothers, so many of whom are ignorant as to the proper care of their offspring. As has been pointed out so often, very many of these deaths were from preventable diseases.

TABLE OF DEATHS OF INFANTS UNDER ONE YEAR OLD, ALSO BIRTHS FOR THE SAME PERIOD IN ONTARIO. STILL-BIRTHS NOT INCLUDED.

Deaths under 1 year.	Year.	Births.
5,435	1901	44,953
4,852	1902	46,645
5,435	1903	47,377
5,212	1904	48,575
6,071	1905	50,288
6,867	1906	50,172
6,295	1907	51,838
6,895	1908	55,388
6,932	1909	52,629
6,450	1910	53,664

The Provincial Board is endeavouring, by means of public exhibitions, dissemination of literature in reference to this subject, lectures, etc., to prevent to some extent this great destruction of life. The question is largely one of education of our population.

DIPHTHERIA AND CROUP.

The deaths from this terrible disease again show an increase of five over the previous year, but still, the number is not so great as that of 1908 by 15.

The local Boards of Health as well as that of the province are doing all in their power to mitigate this evil by the establishment of laboratories, etc., at certain points where they may be quickly reached to determine suspicious cases, in order that every prevention may be enforced.

TYPHOID FEVER.

The large number of cases of and deaths from this disease should be a warning to municipalities to exercise greater care over their water supplies, to insist on better sanitary conditions, proper garbage removal, and safe milk supplies.

In lumber camps the proposal to introduce anti-typhoid inoculation under the control of the Provincial Board should meet with favour.

CANCER.

Deaths from all kinds of Cancer during 1910, show a decrease of ten victims below those of 1909. Toronto alone shows 270, or over 17 per cent. of the total number, which was 1,587. This large number, even for Toronto, is due to the fact that so many of the deaths from cancer which occur in our hospitals are of patients who come into the city from neighboring municipalities.

The most famous workers in the field of medical research throughout the world have been baffled in their endeavors to find a cure for cancer, indeed, its cause is as yet, problematical.

DEATH FROM VIOLENCE.

Altogether there were 1,626 deaths in the province due to external causes. Deaths from railroads, motor-cars, street cars, landslides, and other methods where life was crushed were 209. There were 219 due to fractures of different kinds, 43 were burned to death, and 112 died from burns received. Of these latter, 43 were children under five years of age. 266 were accidentally drowned and 64 shot to death, or died from gun-shot wounds, received by accident, while 17 were killed homicidally. 13 were frozen to death and 8 were killed by sunstroke, or affects of heat. 82, weary of life took various methods to end it, 27 hanging themselves, and 17 taking poison; the rest other means.

Deaths by occupations will be found in Table 14.

A handwritten signature in cursive script, reading "John W. McCullough". The signature is written in dark ink and is positioned above the printed name.

Deputy Registrar-General.

TABLE No. 1.

Table showing the total number of Births, Marriages and Deaths, and ratio per 1,000 of population in each County in Ontario, 1910.

APPENDIX

DETAILED FORM OF THE INTERNATIONAL CLASSIFICATION OF CAUSES OF DEATH.—BERTILLON NOMENCLATURE.

OFFICIAL ENGLISH TRANSLATION.

(Diseases and Causes of Death.)

I.—GENERAL DISEASES.

1. Typhoid fever.
2. Typhus fever.
3. Relapsing fever.
4. Malaria.
5. Smallpox.
6. Measles.
7. Scarlet fever.
8. Whooping cough.
9. Diphtheria and croup.
10. Influenza.
11. Miliary fever.
12. Asiatic cholera.
13. Cholera nostras.
14. Dysentery.
15. Plague.
16. Yellow fever.
17. Leprosy.
18. Erysipelas.
19. Other epidemic diseases.
20. Purulent infection and septicæmia.
21. Glanders.
22. Anthrax.
23. Rabies.
24. Tetanus.
25. Mycoses.
26. Pellagra.
27. Beriberi.
28. Tuberculosis of the lungs.
29. Acute miliary tuberculosis.
30. Tuberculous meningitis.
31. Abdominal tuberculosis.
32. Pott's disease.
33. White swelling.
34. Tuberculosis of other organs.
35. Disseminated tuberculosis.
36. Rickets.
37. Syphilis.
38. Gonococcus infection.
39. Cancer and other malignant tumors of the buccal cavity.
40. Cancer and other malignant tumors of the stomach, liver.
41. Cancer and other malignant tumors of the peritoneum, intestines, rectum.
42. Cancers and other malignant tumors of the female genital organs.
43. Cancer and other malignant tumors of the breast.
44. Cancer and other malignant tumors of the skin.

45. Cancer and other malignant tumors of other organs and of organs not specified.
46. Other tumors (tumors of the female genital organs excepted).
47. Acute articular rheumatism.
48. Chronic rheumatism and gout.
49. Scurvy.
50. Diabetes.
51. Exophthalmic goitre.
52. Addison's disease.
53. Leucæmia.
54. Anæmia, chlorosis.
55. Other general diseases.
56. Alcoholism (acute or chronic).
57. Chronic lead poisoning.
58. Other chronic occupation poisonings.
59. Other chronic poisonings.

II.—DISEASES OF THE NERVOUS SYSTEM AND OF THE ORGANS OF SPECIAL SENSE.

60. Encephalitis.
61. Simple meningitis.
62. Locomotor ataxia.
63. Other diseases of the spinal cord.
64. Cerebral hæmorrhage, apoplexy.
65. Softening of the brain.
66. Paralysis without specified cause.
67. General paralysis of the insane.
68. Other forms of mental alienation.
69. Epilepsy.
70. Convulsions (non-puerperal).
71. Convulsions of infants.
72. Chorea.
73. Neuralgia and neuritis.
74. Other diseases of the nervous system.
75. Diseases of the eyes and their adnexa.
76. Diseases of the ears.

III.—DISEASES OF THE CIRCULATORY SYSTEM.

77. Pericarditis.
78. Acute endocarditis.
79. Organic diseases of the heart.
80. Angina pectoris.
81. Diseases of the arteries, atheroma, aneurysm, etc.
82. Embolism and thrombosis.
83. Diseases of the veins (varices, hemorrhoids, phlebitis, etc.).
84. Diseases of the lymphatic system (lymphangitis, etc.).
85. Hæmorrhage; other diseases of the circulatory system.

IV.—DISEASES OF THE RESPIRATORY SYSTEM.

- 86. Diseases of the nasal fossæ.
- 87. Diseases of the larynx.
- 88. Diseases of the thyroid body.
- 89. Acute bronchitis.
- 90. Chronic bronchitis.
- 91. Broncho-pneumonia.
- 92. Pneumonia.
- 93. Pleurisy.
- 94. Pulmonary congestion, pulmonary apoplexy.
- 95. Gangrene of the lung.
- 96. Asthma.
- 97. Pulmonary emphysema.
- 98. Other diseases of the respiratory system (tuberculosis excepted).

V.—DISEASES OF THE DIGESTIVE SYSTEM.

- 99. Diseases of the mouth and adnexa.
- 100. Diseases of the pharynx.
- 101. Diseases of the œsophagus.
- 102. Ulcer of the stomach.
- 103. Other diseases of the stomach (cancer excepted).
- 104. Diarrhœa and enteritis (under 2 years).
- 105. Diarrhœa and enteritis (2 years and over).
- 106. Ankylostomiasis.
- 107. Intestinal parasites.
- 108. Appendicitis and typhlitis.
- 109. Hernias, intestinal obstructions.
- 110. Diseases of the intestines.
- 111. Acute yellow atrophy of the liver.
- 112. Hydatid tumor of the liver.
- 113. Cirrhosis of the liver.
- 114. Biliary calculi.
- 115. Other diseases of the liver.
- 116. Diseases of the spleen.
- 117. Simple peritonitis (non-puerperal).
- 118. Other diseases of the digestive system (cancer and tuberculosis excepted).

VI.—NON-VENEREAL DISEASES OF THE GENITO-URINARY SYSTEM AND ADNEXA.

- 119. Acute nephritis.
- 120. Bright's disease.
- 121. Chyluria.
- 122. Other diseases of the kidneys and adnexa.
- 123. Calculi of the urinary passages.
- 124. Diseases of the bladder.
- 125. Diseases of the urethra, urinary abscess, etc.
- 126. Diseases of the prostate.
- 127. Non-venereal diseases of the male genital organs.
- 128. Uterine hæmorrhage (non-puerperal).
- 129. Uterine tumor (non-cancerous).
- 130. Other diseases of the uterus.
- 131. Cysts and other tumors of the ovary.
- 132. Salpingitis and other diseases of the female genital organs.
- 133. Non-puerperal diseases of the breast (cancer excepted).

VII.—THE PUERPERAL STATE.

- 134. Accidents of pregnancy.
- 135. Puerperal hæmorrhage.
- 136. Other accidents of labor.
- 137. Puerperal septicæmia.
- 138. Puerperal albuminuria and convulsions.
- 139. Puerperal phlegmasia, alba dolens, embolus, sudden death.
- 140. Following childbirth (not otherwise defined).
- 141. Puerperal diseases of the breast.

VIII.—DISEASES OF THE SKIN AND OF THE CELLULAR TISSUE.

- 142. Gangrene.
- 143. Furuncle.
- 144. Acute abscess.
- 145. Other diseases of the skin and adnexa.

IX.—DISEASES OF THE BONES AND OF THE ORGANS OF LOCOMOTION.

- 146. Diseases of the bones (tuberculosis excepted).
- 147. Diseases of the joints (tuberculosis and rheumatism excepted).
- 148. Amputations.
- 149. Other diseases of the organs of locomotion.

X.—MALFORMATIONS.

- 150. Congenital malformations (stillbirths not included).

XI.—DISEASES OF EARLY INFANCY.

- 151. Congenital debility, icterus and sclerema.
- 152. Other diseases peculiar to early infancy.
- 153. Lack of care.

XII.—OLD AGE.

- 154. Senility.

XIII.—AFFECTIONS PRODUCED BY EXTERNAL CAUSES.

- 155. Suicide by poison.
- 156. Suicide by asphyxia.
- 157. Suicide by hanging or strangulation.
- 158. Suicide by drowning.
- 159. Suicide by firearms.
- 160. Suicide by cutting or piercing instruments.
- 161. Suicide by jumping from high places.
- 162. Suicide by crushing.
- 163. Other suicides.
- 164. Poisoning by food.
- 165. Other acute poisonings.
- 166. Conflagration.
- 167. Burns (conflagration excepted).
- 168. Absorption of deleterious gases (conflagration excepted).
- 169. Accidental drowning.

- 170. Traumatism by firearms.
- 171. Traumatism by cutting or piercing instruments.
- 172. Traumatism by fall.
- 173. Traumatism in mines and quarries.
- 174. Traumatism by machines.
- 175. Traumatism by other crushing (vehicles, railroad, landslides, etc.).
- 176. Injuries by animals.
- 177. Starvation.
- 178. Excessive cold.
- 179. Effects of heat.
- 180. Lightning.
- 181. Electricity (lightning excepted).
- 182. Homicide by firearms.

- 183. Homicide by cutting or piercing instruments.
- 184. Homicide by other means.
- 185. Fractures (cause not specified).
- 186. Other external violence.

XIV.—ILL-DEFINED DISEASES.

- 187. Ill-defined organic disease.
- 188. Sudden death.
- 189. Cause of death not specified or ill-defined.

190. XV.—STILL-BIRTHS.

BRANT.—Concluded.
